

ANNUAL PLANNER 2023-24

LITTLE FLOWER SCHOOL, SREEKANDAPURAM

Year: 2023 - 24 Subject: Mathematics

Class: IA&B

Teacher: Mahija M V

Month	Topics	Activity/Assignment		
June	Numbers 1--9 and zero	Worksheet (count and write the numbers and number name of the objects) .Arrange those numbers in ascending and descending order.		
July	Addition	Showing some objects, add the number of objects and find the sum		
August	Shapes and Patterns	Paste different plane shapes on an assignment paper with matchstick		
September	Numbers 10 - 99	Worksheet (Draw the needs and show the two digit numbers on abacus		
September	Fun with numbers	Arrange the numbers in ascending and descending order (worksheet)		
September- October	Whole and Parts	Write down the correct fractions from the pictures		

First term assessment

November	More addition	Worksheet (Addition of 2digit numbers)		
December	Simple subtraction	Subtracting one digit numbers, subtraction stories (Worksheet)		
December- January	Measurements	Measure the length of their study materials and write down length in units.		
January	Money	Trace out the coins on a paper		
January - February	Multiplication	Memorise multiplication tables		
February	Numbers 100 - 500	Make number chart		
February	Time and calendar	Worksheet (write the correct time) , make a clock		
March	Data handling	Using the given informations, tabulate data. Also answer the questions		

Revision and annual assessment

ANNUAL PLANNER

Year: 2023 - 24

Subject: Mathematics Class: IIA

Teacher: Mahija M V

Month	Topics	Activity/Assignment
June	Three digit numbers	Make three digit numbers from the given digits and arrange those numbers in ascending and descending order . Also write down the smallest and largest number
July	Addition	Worksheet (adding 2 three digit numbers, 3 three digit numbers, addition stories)
July -August	Shapes	Paste different mathematical plane shapes(using matchstick) on a chart paper. Note down its characteristics)
August	Subtraction	Worksheet(subtraction of three digit numbers)
September	Fractions	Make fraction chart
September-October	Data handling	Using the data draw a pictograph

First Term Examination

November	Multiplication	Memorising multiplication tables, conduct quick quiz, worksheet
December	Division	Worksheet (Repeated subtraction & short division)
December	Lines and Patterns	Observe the surroundings and write down some examples of geometric patterns
January	Measurements	Measure the length of different objects with a scale. Worksheet
January	Money	Trace out the pictures of different coins on a paper. Exercise on the text book.
February	Time	Make a clock, worksheet (marking time, draw the hands of a clock)

March : Revision, Annual Examination

ANNUAL PLANNER

Year: 2023 - 24

Subject: Mathematics

Class: III A & B

Teacher: Mahija M V

Month	Topics	Activity/Assignment
June	4 Digit numbers	Make a place value chart
July	Addition	Worksheet (addition of 4 digit numbers, addition property related questions)
July - August	Subtraction	Worksheet (Subtraction of 4 digit numbers with and without regrouping)
August - September	Multiplication	Memorising multiplication tables, quick quiz programs, worksheet
September	Basic Geometry	Showing different geometrical shapes recognize and note down it's name and characteristics
October	Time	Worksheet (reading time to the minutes, writing date in different format)

FIRST TERM EXAMINATION

November	Division	Worksheet (division by one digit number with and without remainder, Division by 10 & 100)
November-December	Fractions	Make a fraction chart
December - January	Money	Prepare the bills and calculate the changes, worksheet (addition and subtraction of money)
January- February	Measurements	Worksheet (Addition and subtraction of units of measurements) How to measure different length weight and capacity
February	Patterns and symmetry	Observe different patterns in nature and make a note .
March	Data Representation	Make tally chart and pictograph by using the data.

Revision and annual assessment

Year Plan 2023-2024

Name of the teacher: Geethu E

Subject :Mathematics

Class : 4 A/B

Month	Topic	Sub topic	Activity
June	Numbers Numbers	<ul style="list-style-type: none"> • 5 digit numbers • Larger number • Indian place value chart • Face value and place value • Comparing numbers • Rounding off numbers 	<p>Strengthen the concept of 5 digit number using spin wheel Solving numerical problems</p> <p>Collect bottle caps of same size . Colour the bottle caps with different colour.Assign green caps for ones ,blue for tens and red for 100s and so on represent different 6 digit and large numbers with bottle caps</p>
July	Addition and subtraction	<ul style="list-style-type: none"> • Addition of large numbers • Subtraction of large numbers • Estimating sum and difference 	<p>Divide learners into groups of 5 and give a set of 10 number cards Then pair each card such that each pair adds up to 10000 Display some picture cards showing the price of some house hold equipments Ask the students to find total cost and difference between each cost .</p>
August	Multiplication and division	<ul style="list-style-type: none"> • Multiplication • Estimation of product • Division • Division by 2 digit number • Tests of divisibility • Multiples and factors • Prime numbers • Prime factors 	<p>Prepare a chart of multiplication tables</p> <p>Work in groups and list the prime numbers on the snake and ladder Board</p>
September	Geometry	Basic geometrical terms Length of line segments	Prepare a model of clock using cardboard and learners observe

	Time	<p>and degree measure of angles Construction of angles</p> <ul style="list-style-type: none"> • 12 hour -24 hour clock formats • Conversion of units of time • Addition and subtraction of time • Word problems 	<p>the rotating movement about the point of intersection of the two hands at the centre of clock Create charts to represent different types of angles by using match sticks buttons icecream sticks ,straws etc Work in groups to find out more about different devices used to measure time.</p>
October	Revision Exam		
November	Fractions Metric measures	<ul style="list-style-type: none"> • Fractions and Decimals • Place value chart and Decimals on the Abacus • Expanded form of decimals • Metric measures • Conversion of metric units • Basic operations on metric measures 	<p>Find the length from home and school of different students and ask them to find sum and difference</p> <p>Measure the height of classroom using thread .</p>
December	Money	<ul style="list-style-type: none"> • Operations on money • Division of money • Word problems on money • Profit and loss 	Collecting currency of different countries
January	Perimeter and area Patterns and symmetry	<ul style="list-style-type: none"> • Perimeter of rectangle and square • Area of rectangle and square • Reflection and symmetry • Different views of objects 	<p>Find the area of classroom</p> <p>Observe the pattern of tiles on floors and walls of school or home draw and colour any one of these patterns.</p>
February	Data representation	<ul style="list-style-type: none"> • Bar graph • Pie chart 	Draw a graph showing information about the ambition of

		MATHEMATICS	group of students
--	--	--------------------	-------------------

CLASS V

SL NO	MONTH	TOPIC YEAR PLAN	SUB TOPIC	ACTIVITY
1	June	Large numbers	Comparison, round off, roman numbers,	Give more problems for practice
2	July	Basic operations on numbers Multiples and factors	Addition, subtraction, multiplication, division Prime and composite numbers, multiples and factors, prime factorisation, lcm, hcf,	Oral test
3	August	Geometry Fractions	Angles, types, triangles, circles Comparison, operations,	Identify different angles
4	September	Time	Units, conversion, addition and subtraction	Make a clock with different time
5	October	Decimals	Place value, multiplication, division,	Give more problems from decimal
6	November	Percentages	Percentage related problems	Tell them to search where we are using percentage in our daily life
7	December	Unitary method, profit and loss	Unitary method, profit and loss, percentage of profit and loss	Connect profit and loss in our daily life
8	January	Perimeter, area and volume	Perimeter and area, volume	Make the models of any of the shape
9	February	Patterns and visualisation	Patterns, symmetry	Make patterns
10	March	Data representation	Graph, average	Draw a graph

YEAR PLAN 2023-2024

Mathematics

Name of the teacher -Salmath vp

Class - VI

	Month	Topic	Sub-Topic	Activity
1	June	1.knowing numbers	i) Large numbers ii) Estimation iii) Roman numerals	Project Very large numbers usage in daily life.
2	July	2.Whole numbers	i) Properties of whole numbers ii) patterns in whole numbers	Make number line using number cards and thread.
3	August	3. Playing with numbers 4. Basic geometrical ideas	i)Prime and composite numbers ii) Divisibility rule iii) HCF and LCM i) Different types of lines and angles	Make a chart of prime and composite numbers
4	September	5. Understanding elementary shapes 6. Integers	i) Different types of triangles ii) Additional subtraction of Integers.	Conduct Game
5	October	7. Fractions	i) like and unlike fractions. ii) Addition and subtraction of like and unlike fractions.	Make Fraction chart of different types of fractions
6	November	8.Decimals	i) Place value chart of decimals. ii) Addition and subtraction of decimals.	Project

		9. Data Handling	i) pictograph and Bar graph	
7	December	10. Mensuration 11. Algebra	i) perimeter and area of different shapes ii) Expressions with variables.	Demonstrate daily life problems where variables can be used like age related problems.
8	January	12. Ratio and proportions	i) Ratios ii) Proportions	Group activity using graph paper
9	February	13.Symmetry 14. Practical geometry	i)Different types of symmetry ii) Construction of different angles	Activity (Paper folding and cutting)
10	March	Revision	Test	Give worksheets

**YEAR PLAN
CLASS VII
MATHEMATICS**

MONTH	TOPIC	SUB TOPIC	ACTIVITY
June	Integers	Addition, subtraction, multiplication and division	Give more problems as homework Oral test
July	Data handling Fractions and decimals	Mean,median,mode,bargraph Multiplication,divisionof fractions and decimal numbers	Collecting the set of data and presenting in a different form

August	Simple equations	Solving the equation	Applications of simple equation
September	Lines and angles Visualizing solid shapes	Pairs of lines, parallel lines Solid shapes, faces, edges, vertices, nets	Apply these knowledge in our daily life situations
October	The triangle and its properties Congruence of triangles	Median, altitude, angle sum property, Pythagoras property Congruence of all types of triangles	Oral test Multiple assessment
November	Comparing quantities Practical geometry	Ratios, percentage, CP and SP, simple interest Construction of different types of triangles	Application Construct these triangles in a chart or colour paper
December	Rational numbers Perimeter and area	Types, comparison, standard form, operations Area of parallelogram & triangle, circle	Practice problem solving Apply in our daily life situations
January	Algebraic expression	Terms, addition and subtraction, finding the value of an expression	Give more problem

February	Exponents and powers symmetry	Laws of exponents and its problems Lines of symmetry, rational symmetry	Identify different symmetrical figures from our surroundings
----------	----------------------------------	----------------------------------------------------------------------------	--------------------------------------------------------------

Mathematics

Name of the teacher - Salmath vp

Class -VIII

1	June	1.Rational Numbers 2. Linear equation in one variables	i) Properties of rational numbers ii) Additional subtraction of rational numbers iii) Rational numbers on a number line i) solve linear equations	Group activity Properties of rational number s
2	July	3. Understanding quadrilaterals 4. Practical geometry	i) Different types of polygons and quadrilateral. ii) constructions of different geometrical shapes.	Collect different types of polygons in your surroundings
3.	August	5. Data handling 6. Square and square roots	i) bar graph ii) Double bar graph iii) Pie diagram i)Square of a number ii) square root of a number	Project Draw different types of based on real life situations
4.	September	7. Cube and cube roots 8. Comparing quantities	i) solve cube and cube root of a number. i) profit and loss ii) discount and interest.	Give some problems based on real life situation.
5.	October	9. Algebraic Expressions and identities	i) Forming expressions	Make some expressions based

		10. Visualising solid shapes	ii) Different types of expressions iii) 2D and 3D shapes.	on real life situations. Collect some 3D shapes check the Euler's formula.
6	November	11. Mensuration 12. Exponents and powers	i) Area and perimeter of different types of geometrical figures 2D and 3D. ii) laws of exponents.	Group activity Find the area and perimeter.
7	December	13. Direct and inverse proportions	i) Direct proportions ii) Indirect proportions	Worksheet
8	January	14. Factorisation 15. Introduction to graph	i) factorisation ii) Line graph and a linear graph.	Project Line graph
9	February	16. Playing with numbers & Revision	Missing numbers	Worksheet
10	March	Revision	Test	Discuss different types of questions

YEAR PLAN
CLASS IX
MATHEMATICS

SL NO	MONTH	TOPIC	SUB TOPIC	ACTIVITY
1	MAY	Number system	Rational and irrational numbers, real numbers & operations, laws of real numbers	Oral test
2	JUNE	Polynomials	Zeros, remainder theorem, factorisation, identities	Give more problems
		Coordinate geometry	Cartesian system, plotting the points	Apply coordinate geometry in our daily life situations
3	JULY	Linear equations in two variables	Solution of linear equations, graph, equations of lines	Solving linear equations
4	AUGUST	Lines and angles	Different types of lines, angles, angle sum property	Written test
		triangles		Oral test
5	SEPTEMBER	Quadrilaterals	Types, Angle sum property, properties of parallelogram, midpoint theorem	Apply this knowledge in our daily life situations
		Areas of parallelogram	Different types of figures and related problems	
6	OCTOBER	circles	Circles and related terms, cyclic quadrilateral	Multiple assessment
7	NOVEMBER	Construction Heron's formula	Area of triangle and application of heron's formula	Application of this formula in our daily life situations
8	DECEMBER	Surface areas and volumes	Surface area of cuboid, cube, cylinder, cone, sphere Volume of cuboid, cylinder, cone, sphere.	Shows different types of shapes in class and tell them to find their surface area and volume
9	JANUARY	Statistics	Data, graphical representation Central tendency	Apply this knowledge in our daily life situations.

		Probability	Probability	
		Introduction to Euclid's geometry	Axioms, postulates	Oral test

Mathematics

Name of the teacher -Salmath vp

Class -X

	Month	Topic	Sub -Topics	Activity
1	April	1.Real Numbers 2. Polynomials	i)Euclid's Division lemma ii) Fundamental Theorem iii)Irrational Numbers i) Zeroes of polynomials ii) Relationship between zeroes and coefficients.	To find the HCF of two numbers experimentally based on Euclid's Division lemma. Draw a graph of quadratic polynomials
2	May	3. Pair of Linear Equations in Two variables 4. Quadratic Equations	i) General form of L.E ii) solution of L.E iii) Algebraic methode iv) Graphical method i) standard form ii) Roots of Quadratic Equation iii) Factorisation Method iv) Discriminant Method	To obtain the condition for consistency of system of linear equations in two variables.
3	June	5. Arithmetic Progressions	i) General term ii) nth term of an AP iii) Sum of n terms of an AP	To verify that given sequence in an AP by the paper cutting and paper folding.
4	July	6. Triangles	i) Similar figures ii) Basic proportionality theorem iii) Criterion of similarity iv) Theorems	To verify Basic proportionality theorem using parallel line board.
5	August	7. Coordinate Geometry	i) Distance formula ii) Section formula iii) Mid point formula	To find the distance between two object by physically demonstrating.

6	September	8. Introduction to Trigonometry 9. Applications of Trigonometry	i) Trigonometric Ratios ii) Trigonometric Identities i) Heights and Distances	To make mathematical instrument Clinometer for measuring the angle of elevation/ depression of an object.
7	October	10. Circles 11. Area Related to Circles	i) Tangent to a circle ii) Number of Tangents from a point on a circle i) Area of Sector and segment	To find the number of tangent from a point to the circle.
8	November	13.Surface Areas and Volumes	i) Surface Area of a combination of solids ii) Volume of a Combinations of solids iii) Conversion of solid from one shape to another.	To make Right circular cylinder ,find surface area and volume.
	December	14. Statistics 15. probability	i) Mean (Three formula) ii) Median formula iii) Mode i) Different types of Event	To find a average height of students studying in a school.
	January February	Revision	Tests	Discuss previous year questions.

YEAR PLAN 2023-24

SUBJECT: COMPUTER

CLASS: I

NAME OF THE TUTOR: NIJISHA P J

MONTH	TOPICS	ASSIGNMENTS/ACTIVITIES
June	1. Computer-My friend	Collect and paste the pictures of different types of computers in the textbook.
July	2. Computer – A Machine	Make a list of machines that work on electricity, fuel and human power.
August	3. Uses of a computer	List the different places where computers are used.
September	4. Parts of a computer	Children should act as different parts of a computer and tell the function of each part.
October	Continuation of Lesson 4	
November	5. The keyboard	Lab activity: Open ‘Notepad’ and type the school address.
December	6. Using a mouse	Lab activity: Game to practice mouse actions
January	7. Data and Storage	Collect the pictures of some storage devices
February	Continuation of Lesson 7	
March	Revision	

SAUBJECT: COMPUTER**Class: II****Name of the teacher: LIJA P SEBASTIAN**

MONTH	TOPIC	ASSIGNMENT /ACTIVITY
June	Chapter 1. • Computer – A Smart Machine	Collecting and pasting picture of computer in the notebook.
July	Chapter 2. • Parts of a Computer	Collect pictures of different parts of a computer.
August	Chapter 3. • Working of a Computer	List Input, Output and Storage devices.
September	Chapter 4. • Operating a Computer	Identify the various components of Windows operating system in the given picture and label them. (In the textbook)
October	• Continuation of lesson 4	
November	Chapter 5. • Keyboard and its Functions	Use the keys box given below and write the correct keyboard keys that are missing. (In the Text Book)
December	Chapter 6	Open a word file and type a paragraph given in the text book.

	<ul style="list-style-type: none"> Using Word 2019 	(Lab Activity)
January	Chapter 7 <ul style="list-style-type: none"> Introduction to Scratch Jr. 	Create a game by using the instructions given in the Text Book.(Lab Activity)
February	Chapter 8 <ul style="list-style-type: none"> Animation in Scratch Jr. 	Create an animation in Scratch Jr by adding some animals and making them disappear after saying a message. (Lab Activity)
March	Revision	

SUBJECT: COMPUTER

CLASS: III

NAME OF THE TUTOR: NIJISHA P J

MONTH	TOPICS	ASSIGNMENTS/ACTIVITIES
June	1.Know about Computers	Make a colourful collage on ‘Types of Computers’ and label them
July	2. Hardware and Software	List the names of any ten hardware and software available in the Computer lab
August	3. Introduction to Windows 10	Lab activity: Set the ‘Purple’ colour background for the desktop.
September	4. Editing Text in Word	Lab activity: Type any 5 computer manners in Word and edit as per the instructions of Teacher.
October	5. Formatting in Word	Lab activity: Create a poster in Word on the Topic, “Side effects of increased screen time”.
November	6. Working with Paint 3D	Lab activity: Create a rainy day scene in Paint 3D. Use the 3D library to add the ready-made objects in your drawing.
December	7. Introduction to Scratch	Lab activity: Draw different shapes in Scratch with a colourful pen style.
January	8. Simple Movement of a Sprite	Lab activity: Create a scene of outer space and add the Robot and Dot sprites. Make an interesting script for the conversation between both of them by adding blocks from Sound, Looks and Control category.
February	Continuation of Lesson 8	
March	Revision	

SUBJECT: COMPUTER

CLASS: IV

NAME OF THE TUTOR: NIJISHA P J

MONTH	TOPICS	ASSIGNMENTS/ACTIVITIES
June	1.Know about Computers	Make a colourful collage on ‘Types of Computers’ and label them
July	2. Hardware and Software	List the names of any ten hardware and software available in the Computer lab
August	3. Introduction to Windows 10	Lab activity: Set the ‘Purple’ colour background for the desktop.

September	4. Editing Text in Word	Lab activity: Type any 5 computer manners in Word and edit as per the instructions of Teacher.
October	5. Formatting in Word	Lab activity: Create a poster in Word on the Topic, "Side effects of increased screen time".
November	6. Working with Paint 3D	Lab activity: Create a rainy day scene in Paint 3D. Use the 3D library to add the ready-made objects in your drawing.
December	7. Introduction to Scratch	Lab activity: Draw different shapes in Scratch with a colourful pen style.
January	8. Simple Movement of a Sprite	Lab activity: Create a scene of outer space and add the Robot and Dot sprites. Make an interesting script for the conversation between both of them by adding blocks from Sound, Looks and Control category.
February	Continuation of Lesson 8	
March	Revision	

SUBJECT: COMPUTER Class: V Name of the teacher: LIJA P SEBASTIAN

MONTH	TOPIC	ASSIGNMENT /ACTIVITY
June	Chapter 1. • Evolution of Computer	Make a collage on the 'Different types of Calculating Devices' by collecting pictures from the internet and magazine.
July	Chapter 2. • Understanding Windows 10	Make a presentation on the topic Universal apps of Windows 10. Collect and insert the pictures along with the information about the following apps. Alarm and Clock, Maps , Calendar, News, Sports etc. (Lab Activity)
August	Chapter 3. • Working with tables in word.	Open a word document and create a PROGRESS REPORT for 10 students of your class. (Lab Activity)
September	Chapter 4. • Using Mail Merge	Crete an invitation letter to seek the participation of various schools in an Inter School Computer Quiz conducting by your school. (Lab Activity)
October	Chapter 5. • Enhancing a Presentation	Create a presentation in Power Point according to the instructions given by the teacher. (Lab Activity)
November	Chapter 6. • Programming in Scratch	Write a Scratch program to display and calculate the length of the following words. Achievement, Flattery, Knowledgeable, Zealous. (Lab Activity)
December	Chapter 7 Introduction to Excel •	Create 'PROGRESS REPORT' of 10 students of your class. (Lab Activity)
January	Chapter 8 • Internet And E-Mail	Create an E-mil account and send mails to your friends describing about the place you visited in summer vacation.
February	Chapter 9 • Algorithms and Flowcharts.	Create a chart to depict the use of different flowchart symbols.
March	Revision	

SAUBJECT: COMPUTER Class: VI Name of the teacher: LIJA P SEBASTIAN

MONTH	TOPIC	ASSIGNMENT /ACTIVITY
June	Chapter 1. • Computer Languages	Search more about AI with the help of the internet, newspaper and computer magazines. Make a presentation on the topic 'Development of Artificial Intelligence.'
July	Chapter 2. • More on Windows	Collect information about any five Utilities of Windows 10 and create a presentation. Show your creativity in the presentation by making it attractive.
August	Chapter 3. • Fun with PowerPoint.	Make a presentation of twenty slides on the topic 'Diversity in India.' This presentation should depict the history, culture, festivals, food, languages etc. of our country. Apply all animation and transition effects that you have learnt.
September	Chapter 4. • More on PowerPoint	Prepare a PowerPoint presentation on the topic 'Festivals of India'. They can collect relevant information and pictures from the internet with the help of their elders.
October	Chapter 5. • Working with spread sheets.	Create an Excel sheet to organize cultural festival with nearby schools of the city of your school. Collect data from other schools regarding the participants.
November	Chapter 6. • Introduction to Krita	Create image in Krita with the help of Clone brush tool.
December	Chapter 7 • Introduction to Python	Write a program to print you address.
January	Chapter 8 • Creating Web Pages using HTML	Create a web page for the website of your school, which will display the first three rank holders of classes 1-10. The title of the page should be: Achievers of the Year. Make use of the appropriate tags and different background properties.
February	Chapter 9 • Internet Services.	Make a presentation on the topic : Popular Services on the Internet.
March	Revision	

SAUBJECT: COMPUTER Class: VII Name of the teacher: LIJA P SEBASTIAN

MONTH	TOPIC	ASSIGNMENT /ACTIVITY
June	Chapter 1. • Number System	Make a presentation on the number system. Set a beautiful background. Apply formatting and animation effects to it.
July	Chapter 2. • Formulas and Functions	Create a worksheet to maintain your Monthly Expenses on Stationery.
August	Chapter 3. • Advanced Features of Excel.	Create a chart in excel with proper formatting effects for a given data.
September	Chapter 4. • More on Python	Create a program for calculating the total salary of the employee.
October	Chapter 5. • Layers in Krita	Create a poster in Krita emphasizing on the "Importance of Hygiene"
November	Chapter 6. • Animation Using Krita	Make a chart on the various tools of Krita animation under the title, Understanding the Krita Environment.

December	Chapter 7 • More on HTML	Create a web page; displaying their personal profile, portraying their aim in life, hobbies and strengths that make them unique.
January	Chapter 8 • Introduction to App Development.	Create a Mobile App for mobile phone which will provide information about the tourist destination Goa.
February	Chapter 9 • Cyber Threads and Security.	Make a presentation of different types of Virus and their Harmful Effects.
March	Chapter 10 • Introduction to Artificial Intelligence.	Create a PowerPoint presentation on Artificial Intelligence. Also add a slide in the presentation to show AI can play an important role in your school.

SUBJECT: COMPUTER

CLASS: VIII

NAME OF THE TUTOR: NIJISHA P J

MONTH	TOPICS	ASSIGNMENTS/ACTIVITIES
June	1. Networking Concepts	Prepare an assignment on 'Basic type of Network Topology'
July	2. Log on to Access	Lab activity: Create a DBMS table to store the details of a Library book
August	3. Working with Tables	Lab activity: Create a database of your friends by defining the fields: ID, First Name, Last Name, Date of Birth, Email, City and enter 5 records in it.
September	4. Working with Queries, Forms and Reports	Lab activity: Create a database for sales details of a coffee shop. Enter the details through Form and Generate a Report and export to Word file.
October	5. Iterative Statements in Python	Write a Python program to print the table of a number using the For loop
November	6. Links and Frames in HTML 5	Lab activity: Create an HTML document on the topic CSS TEXT v/s CSS FONTS. The web page should contain two frames wherein one frame will display Text properties and the other Font properties.
December	7. Introduction to PHP	Create a webpage in PHP as per the instruction of teacher.
January	8. Connecting Web App to Database	Create a webpage in PHP that can access the record of a student based on the ID entered by the user.
February	9. Cyber Ethics 10. Introduction to Robotics	Make a model of a Robot by using the waste material you find at your home. Use your creativity to give it a realistic look and feel.
March	Revision	

MONTH	TOPIC	ASSIGNMENT /ACTIVITY
PART B		
May	Unit 3 • Digital Documentation: • Word Processor	Create a Document in Open Office, edit and format it.
June	Unit 4 • Electronic spreadsheet	Create a Progress Report in Spreadsheet
July	Unit 5 • Digital Presentation.	Create a presentation on the Theme 'Kerala God's Own Country'.
August	Unit 1 • Introduction to IT- ITes	Identify and list various IT enabled services, Observe the application of IT in various areas.
September	Unit 2 • Data Entry and Keyboard Skills	Identify the keys and its uses on the keyboard.
PART A		
October	Unit 1 Communication Skills	Draw a diagram of communication cycle.
November	Unit 2 • Self- Management Skills	Strength and weakness analysis of themselves in written form.
December	Unit 3. • ICT Skills	Discussion on the role and importance of ICT in personal life and at work place. Connecting the cable and peripherals to the CPU.
January	Unit 4 Entrepreneurial Skills	Prepare a list of businesses that provides goods and services in exchange for money.
February	Unit 5 • Green Skills	Enlist any two points that an architect must keep in mind at the time of designing a Green Building.
March	• Exam	

SUBJECT: Information Technology

CLASS: X

NAME OF THE TUTOR: NIJISHA P J

MONTH	TOPICS	ASSIGNMENTS/ACTIVITIES
May	Part A- Unit 1 Communication Skill	<ul style="list-style-type: none"> List do's and don'ts for avoiding common body language mistakes. Form groups with 4 students in each group. Each member in a group should write down three ways to overcome barriers to effective communication. Each student from a group should say aloud one point each; till all the ways have been discussed
June	Part B- Unit 1 Digital Documentation	Lab activity: <ul style="list-style-type: none"> Create a Oo document as per the instruction of teacher and save as a template. Write a letter to invite your parents and other guests to attend the annual day function of

		your school and merge them. Create a data source with at least 10 addresses.
July	Part B- Unit 2 Electronic Spreadsheet	Lab activity: <ul style="list-style-type: none"> • Use Goal seek and Solver • Create reference to other document by using keyboard and mouse • Create a simple macro and use a macro function.
August	Part A- Unit 2 Self Management Skill	Form pairs of students. <ul style="list-style-type: none"> • Each student will make a list of things that they can do well. • Share your notes with your partner. • One volunteer from the pair comes and reads, in front of the class
September	Part A- Unit 3 ICT Skills	Form groups and make a chart to list down all the ways in which a device can be damaged and how it can be prevented.
October	Part B – Unit 3 Database Management System	Lab activity: <ul style="list-style-type: none"> • Prepare a sample table with some standard fields. • Assign datatypes of fields and set primary key. • Create and edit table using DDL commands. • Create Form using Form wizard • Enter or Remove data from forms. • Create Report using Report wizard
November	Part A- Unit 4 Entrepreneurial Skill	Write your interests, and mention the jobs available around these interests and then mention a business you can start around.
December	Part A- Unit 5 Green Skills	Write slogans / poems to highlight the importance of conserving water.
January	Part B – Unit 4 Web Applications and Security	Group activity: Prepare presentations on Internet security threats, cyber security tips, safety rules at workplace.

YEAR PLAN 2023- 2024

Name : Anju Joseph

Class : I

Subject : Environmental Studies

MONTH	TOPIC	ACTIVITY/ ASSIGNMENT
June	1.My Body	Identify parts of the body. They will tell one use of the different parts of our body.
	2.My Family	Assignment – Draw a family tree. Write the names of their family member and relation.
July	1.My Home	Students are divided into 4 groups. Each group take a piece of chart paper. Think and discuss a good manner or a habit that they want to make a poster on. Make the poster together and display it in the class.
	2. Rooms in a House	Assignment – Collect pictures of different rooms in a house and paste them into their notebook.
August	1.The Food I Eat	Discussion- Student will discuss their favourite food. The ingredients for making it and how to make this food.
	2. Cleanliness	Make a chart with pictures that show ways to keep our body clean.
September	1. My Neighbourhood	List down some places in our neighbourhood. Give a story with some blank spaces. Students need to complete the story by using the given words themselves.
	2.People Who Help Us	Paste pictures of helpers around us in their notebook and write their names.
October	1.Festivals	Calendar Making – Make a calendar with proper date and national festivals.
	2.Healthy Habits	Draw a wheel- Draw a wheel in their notebook and write their favourite games on it.
November	1.Plants Around Us	Divide students into 4 groups. Collect different types of leaves and seeds. Make a beautiful design on a chart paper.
	2.Animals Around Us	Group Activity – Divide students into 2 groups. Each group will say the difference between domestic and pet animals.
December	1.Water	Group Discussion – Each student needs to say one way in which he/she tries to save water.
	2.Day and Night	Make different shapes of the moon we see with colour paper.
January	1.Air Around Us	Make a hand fan in class.
February	1.Seasons	Collect pictures of different seasons, paste it, and write their names in their notebook.

YEAR PLAN – 2023 to 2024		
Subject : Environmental Studies		
Class : II		
Submitted by : Anju Joseph		
Month	Topic	Activity/Assignment
June	1.My Body	Graph –Make a graph with internal and external parts.
	2.My Sense Organs	Picture pasting – Collect or draw the pictures of 5sense organs, name them and write 2 or 3 sentences in their notebook.
July	1.Types of Houses	Assignment – Draw a house and decorate using sticks, straws, grass, wool, buttons, or any other item.
	2.The Food we Eat	Food calendar – Make a calendar with the healthy food which eats in a week, also including days and time.
August	1.Clothes we wear	Assignment – Find out from their elders in their family how to take care of clothes. Make a note about it.
September	1.Keeping Clean and Healthy	Poster making – Write posters on chart paper about how can we keep our places neat.
October	1. The world of Animals	Discussion – Some animals are kept in cages in our homes. Do you feel it is right to keep animals in a cage? Discuss in class
	2. Plants Around Us	Picture drawing – Draw a picture of a plant and label its parts in their notebook.
November	1. Uses of Plants	Collect pictures of things that are made from any one part of plants (leaves and wood)
	2.Water	Poster Making – Make posters with the theme of 'Save water.
December	1. All About Air	Deep breathing exercise – Do the exercise in class with the teacher's instruction.
	2.Our Nation	Learn the national anthem. Students will learn the National Anthem with proper tunes and correct words.
January	The Universe	Model Making -Make a solar system model and display it in class.
	2. Weather and Seasons	Seminar presentation – Each student will present seasons and weather in class (2 or 3 features)
February	Our Environment	Form groups of four, and make posters on keeping the environment clean. Display the posters in class.

Year plan 2023- 2024

Class 3 – science

Name of the teacher: Dhanya M Saimon

Month	Topics	Sub topics	Activities
June	1. Living and non living things	a. Living things breath b.Living things grow c. Living things reproduce	. collect the pictures of leaving and nonliving things . Make a leaf print card
	2. Parts of a plant	a. Roots b. Stem c. Leaf d. Flowers fruits	

		and seeds	
July	3. Eating habits of animals	a. Herbivores b. Carnivores c. Omnivores	. Collect pictures of herbivores carnivores and omnivores and paste in a chart paper
August	4. Movement s in animals 5. The human body	a. Animals that move on land b. Animal that swim c. Animals that fly a. Skeletal system b. Muscular System c. Digestive system d. Respiratory system	. Assignment on different types of movements in animals . Draw and colour the Assigned organ system on a chart paper
September	6. Healthy and clean habits	a. Keeping the body clean b. Healthy teeth c. Keeping the body healthy	. Prepare a habit tracker.
October	1. Birds 2. Water	. Parts of a bird . Beaks of birds . Feet and claws of birds . Sources of water . Forms of water . Water cycle . Uses of water	Make a birdhouse, bird feeder and bird bath. Draw and colour pictures on different uses of water.
November	3. Matter and its properties	. States of matter . Change of state of matter	Collect some packets of bindis of three different colours and use them to
	4. Solutions and solubility	. Factors that increase solubility . Solvents around us	show the molecular arrangement of solids liquids and gases on a chart paper. Make ORS solution.
December	5. Weather and seasons	. Factors that affect weather . Seasons . Weather forecast	. Observe the weather conditions for the entire week and make a tabular column

January	6. My green world	. Types of waste . Waste segregation	. Convert some common waste materials into something useful
February	7. Safety and first aid	. Safety on road . Safety at school . Safety at the playground . Safety at home . First aid	. Make a first aid box
March	Revision		

Year plan 2023 - 2024

Science

Class 4 Name of the teacher: Dhanya M Saimon

Month	Topics	Sub topics	Activities
June	1. Plants - our green friends 2. Adaptations in plants	. Parts of a leaf . unusual plants . Terrestrial plants . Aquatic plants	. Collect fallen leaves of various shapes and sizes . Collect the names of a hot desert and cold mountain in India
July	3. Adaptations in animals	. Terrestrial animals . Aerial animals . Aquatic animals	. Collect the pictures of animals living in grasslands mountains and water
August	4. Food and digestion 5. Teeth and microbes	. Balanced diet . Digestion of food . Different kinds of teeth	. Make a colourful food poster
September	6. Teeth and microbes	. Structure of a tooth	. Find out information on COVID-19
October	1. Soil 2. air ,water and weather	. Soil types . soil and crops . air . water	. make models of birds animals etc by using clay . prepare speech on different ways to keep the air clean and save water
November	3. Separation of substances	. Mixtures . soluble substances . separation of substances	. make a rainbow in a jar
December	4. Force work and energy	. force . Types of forces . energy	. find the names of five hydroelectric power plants in India and its locations.
January	5. Pollution	. water pollution . air pollution . soil pollution . forest	. make a posture to raise awareness about pollution and its effects.

February	6. Safety and first aid	. safety in kitchen . safety in swimming pool . safety on road	. safety rules snakes and ladders.
March	Revision.		

Year Plan 2023-2024

Name of teacher :Geethu E

Subject : Science

Class : 5A/5B

Month	Topic	Subtopic	Activity
June	Plant life	<ul style="list-style-type: none"> • Seeds • Reproduction through plants parts other than seeds. 	<p>Draw the parts of plants .</p> <p>Collect a potato that has many buds on its surface .Put some soil in flower pot and bury the potato pieces in soil.</p> <p>Place the pot in a place where it recieves ample sunlight .Observe changes.</p> <p>Draw life cycle of cockroach, butterfly,bird and frog on chart paper.</p>
	Animal life	<ul style="list-style-type: none"> • Oviparous animals • Viviparous animals • Taking care of eggs and young ones. 	
July	Bones and muscles	<ul style="list-style-type: none"> • Human skeletal system • Joints • Muscles 	Make a chart on different parts of skeletal system.
August	The nervous system	<ul style="list-style-type: none"> • The brain • Spinal cord • Nerves • Reflex action • Sense organs 	Make a model of human brain

	Diseases	<ul style="list-style-type: none"> ● Communicable Diseases ● Vaccination ● Non communicable diseases 	Make awareness poster on deficiency disease, communicable, non communicable disease.
September	Natural resources	<ul style="list-style-type: none"> ● Renewable resources ● Non-renewable resources 	Prepare a chart on renewable and non-renewable resources.
October	Revision 1st term exam		
November	Food and health	<ul style="list-style-type: none"> ● Nutrients ● Roughage ● Water ● Balanced diet ● Exercise and rest 	Prepare weekly diet chart
December	Soil erosion and conservation	<ul style="list-style-type: none"> ● Importance of soil . ● Soil erosion ● Soil conservation 	Collect different types of soil from surroundings and identify them.
January	Air and importance Simple machines	<ul style="list-style-type: none"> ● Air is a mixture ● Air and weather ● Properties of Air ● Uses of Air ● Simple machines ● Levers ● Inclined plane ● Wedge ● Screw ● Wheel and axle ● Pulley 	Take some lime water in a beaker and blow air into through a straw. Observe and list five different household activities which involve the use of different types of simple machines.
February	Light and shadows	<ul style="list-style-type: none"> ● Light can travel ● Light can get reflected ● Shadow 	Make a model of sundial Draw solar and lunar eclipse on

	Keeping our environment clean	<ul style="list-style-type: none"> ● Eclipse ● Pollution ● Types of waste ● Ways to reduce waste 	chart
	Natural calamities	<ul style="list-style-type: none"> ● Earthquakes ● Flood ● Cyclones and storms 	<p>Create a model by using waste material</p> <p>Debate on do's and don'ts to be followed during calamity</p>

Biology

Class 7 Name of the teacher: Dhanya M Saimon

month	Topics	Subtopics	Learning activities
June	1.nutrition in plants	.Mode of nutrition in plants . photosynthesis food making process in plants . another mode of nutrition in plants	Assignment on different types of nutrition
July	2.nutrition in animals 3.fiber to fabric	.Digestion in humans . digestion in grass eating animals . feeding and digestion in amoeba . Animal fibers wool and silk .History of silk moth . from cocoon to silk	Make a model of digestive system in humans Collect the pictures of processing fibers into wool
August	4. Acids, bases and salts 5. Physical and chemical change	.Natural indicators around us . neutralization in everyday life .Physical changes . crystallization	Collect the soil samples and find out if it is acidic basic or neutral Collect information about the types of fuels used for cooking in your area
September	6. weather climate and adaptations of animals to climate	.Weather . climate . climate and adaptation	Assignment on adaptations in different animals

October	7. Soil 8. respiration in organisms	.Soil profile . soil type . properties of soil . soil and crops .breathing .Breathing in other animals . breathing underwater	Collect different types of soil. measure the breathing rate of the members of your family and some of your friends.
November	9. transportation in animals and plants	.Circulatory system . Excretion in animals .Transport of substances in plants	Assignment on blood groups and its importance.

December	10. reproduction in plants	Asexual reproduction sexual reproduction fruits and seed formation	Collect different types of fruits and examine the seeds within. Note down its special characteristics.
January	11. water a precious resource 12. forest our lifeline	.How much water is available . groundwater as an important source of water . increasing population . rainwater harvesting	Assignment on rainwater harvesting
February	13. Waste water story	What is sewage . wastewater treatment plant	make a poster on wastewater treatment
March	revision		

Month	Topics	Sub topics	Learning activities
June	Crop production and management	.Methods of crop production . Irrigation methods . harvesting methods . storage methods .Animal husbandry	. assignment on different types of machines using in agriculture . make a photo album of different new machineries using in farming
July	Microorganisms friend and foe	. Useful microorganisms . Antibiotics .Vaccines	.assignment on different types of transmitting diseases present in our surroundings.
August	Microorganisms friend and foe	.Harmful microorganisms .Plant diseases	
September	conservation of plants and animals	.Wildlife sanctuaries, national parks, biosphere reserves .Ecosystem, species and endangered animals. . Red data book. . Afforestation and reforestation.	.Identification of flora and fauna of your area and list them. .Make a photo album of endangered animals.
October	cell structure and function	.Discovery of cell . Basic structure of cell	.draw plant cell and animal cell in a chart paper.
November	cell structure and function	.Prokaryotic and eukaryotic organisms . difference between plant cell and animal cell.	
December	reproduction in animals	.Male reproductive system . female reproductive system .Metamorphosis.	. collection of eggs (Frog, lizard, butterfly and moth)
January	reaching the age of adolescence	.Changes in puberty . secondary sexual characters	. collect information From magazines and prepare a note on the importance of consuming iodized salt.
February	reaching the age of adolescence	. endocrine hormones .sex determination in human being	.Prepare a chart of the diet for adolescents.
